Growth Regulator	SA	1 application every 3 years		X	X	X	X	X	X	X		
Soil Management	SA	1 application		X	X	X		X	X	X		

TYPE: FS (Foliar spray), SA (Soil application), TI (Tree injection), TS (Trunk spray)

Colonial Tree Service takes a holistic, conservative approach to tree health care. Timing and type of treatment are chosen carefully to achieve optimal results. Cultural practices may be recommended for your particular tree problem or need. Tree Health contracts are renewed annually in late winter. Be sure to approve early to ensure your treatment(s) can be scheduled for the upcoming growing season.

If you have any questions, please don't hesitate to contact us.
